

As a part of this program, students will:

1. Train online with Bolt IoT on the concepts of Web Development. When students register with us, we guide them and help in building their resume and getting them ready for interviews that can lead to paid internships with stipends.

2. Students can apply for internships with stipend to various organisations from here:  
<https://www.bolttiot.com/opportunities>

3. Bolt IoT will offer a guaranteed online internship for every student incase they do not get internships with the organisations mentioned above. While the guaranteed internship does not offer a stipend, it will provide students with the necessary hands-on experience and a certificate that can be submitted to the college as per industry standards.

**Critical:** Students from 1st year to final year are eligible for this opportunity. Please do share this opportunity with all the students at the earliest so that they can make the most of it.

What's in it for the students?

Students can practically implement what they learn via this hands-on training. In addition, our mentors will be available if they need any assistance during the training or while building the projects.

Students have lifetime access to the training, they can learn anytime and at their own pace.

Certificate of completion of the training as well as the internship.

Guaranteed Internship upon training completion with a certificate that can be submitted to the college.

We cover programming languages and technologies like 'HTML, CSS, JavaScript, React, and AJAX' from basics. Students need not have any prior knowledge.

The option of a full refund in case the students are not happy with the training offered to them.

Scholarship for Students of College of Vocational Studies:

Since College of Vocational Studies has been shortlisted for this program, students can avail of the training at 90% OFF. The original price of the training is Rs. 8,600/-.

The students only have to pay Rs. 990/- towards the training if they qualify for the test:  
<https://info.boltiot.com/webdevelopmentscholarship>

Next steps for faculty:

The last date to avail of the scholarship is TOMORROW, the 25th of April 2023.

Please share about this program with your students by forwarding this email to them at the earliest.

You may also share via WhatsApp message by clicking here:
