ECONOX

The Economics Society of CVS has proudly hosted a couple of events in the academic year in 2016-17 :-

MIND PALACE 3.0- Hosted on 21st September, 2016. This was an event that tested the detective abilities, quick wit and logic application of the participants. It was an on campus thriller based on a murder mystery. This event received a beyond expectation footfall and an extremely heart warming response.

A quizzical event by the name of **CATECHISM** on 31st January, 2017. It was a three-tier quizzing event including an economics quiz, a general knowledge quiz and a tv series quiz.

The **General Knowledge Quiz- Q-RIOSITY** had the final round in the form of a bidding round wherein the participants were allowed to bid their own questions bags using the points earned in the previous rounds.

The **Economics Quiz- EPOCALYPSE** involved a monopoly round wherein different stations were made in the college amphitheatre and the participants could stop at stations of their own choice, do different activities and then answer the questions.

The T.V. Series Quiz- **PLAY PAUSE REWIND-** This quiz was made interesting in its own way by putting precursors such as dart board aim, buzzer round etc. to answering questions.

This event was an attempt by the society to host an informative and research event and at the same time making sure that the participants had their share of fun. The response received from the participants was highly impressive and overwhelming.

The society is now working towards the annual economics fest of CVS, ARTHOTSAVA'17. The students are busy fabricating the events to supercede the previously set expectations and to raise the bar of events even higher this time

THE ENTREPRENEURIAL BOARD

EVENTS AND WORKSHOPS CONDUCTED

➤ **ILLUMINATE**

Beguiling, captivating and inspiring, Illuminate conjured true delight and excitement among all the 90 participants.

Illuminate comprehended a ground breaking session about entrepreneurship, startups, power of B-plans and business development.

Our speaker for the workshop was *Mr. Ramesh Salman*, who made sure that no one left the room with any fear or dubiety about entrepreneurship as a career. The session took an unorthodox turn when he made the entrepreneurs among the crowd stand and share their B-plans and success stories of how they managed to establish their startups while still studying in college.

The workshop terminated with a play-down in which the crowd was split up into teams of 9 to form business plans that necessitated a whole lot of brainstorming for the budding entrepreneurs.

Illuminate was undoubtedly a pinnacle due to the countless opportunities that it bequeathed the participants.

➤ **E-GNITE**

After immense hard work and diligence undergraduates could reconcile the aspirations with their mind and soul.

The words of different speakers were like a thunderstorm as because, pupils couldn't satisfy themselves that 'WAS IT THAT EASY ' to settle up and resolute things ?

But the answer is self explanatory as the presence of addressers like *Ankit Kawatra*, *Vikram Bodke* and others made it possible.

Egnite was a complete combination of excitement, quizzes and unmitigated entertainment.

Students were induced with a quotation that "Better you work hard to fulfil your dreams otherwise someone else will recruit you to mitigate his ambition."

This made the mob ardent and vigilant about their future goals which in reverse helped them in reaching remarkable grades.

➤ **HACKATHON**

The Hackathon was conducted in collaboration with Shiv Nadar University. Since it required sufficient electronically backing and logistical set up, a collaboration like this was favoured.

It was a long drawn process which started from obtaining necessary permissions from officials of the college. A hackathon is not a very common event in Delhi University and we had a lot of support from our teachers for the same.

Second, the event planning. The event planning for a hackathon that goes on continuously for 36 hours was quite a task in itself. We had covered every minute detail like refreshments, Power backups, and other factors.

The participants were given a number of themes that they could choose from and they had to develop softwares/app/websites pertaining to the same. Following this, they had to present their ideas to a panel of experts.

The themes involved Biometric testing, water conservation, search index apps/websites, and on college environment related topics.

The experts were department heads from Shiv Nadar University and Industry Professionals. They were impressed with the students' efforts and many offered to mentor the students in the final year of college.

It was one of the most difficult events to set up, however one of the most successful as well.

➤ **NATIONAL ENTREPRENEURSHIP CHALLENGE**

NEC or the National Entrepreneurship Challenge is the flagship event of IIT Bombay and one of the largest entrepreneurship fest in India. In 2014, TEB secured the 4th position out of over 150 colleges leaving behind top B schools and engineering colleges. In 2015 as well, we reached the finals.

We reached new heights this year by bagging the 3rd position at NEC'17

Embarking our journey from the beginners level, we finally made it to the advanced and competed against one of the top MBA and Engineering colleges of our country.

➤ **AMAZING RACE**

Amazing Race targeted towards crowd pulling and pleasing.

Fun events such as Beg borrow Steal, group selfie competition and heads up were few such sub events organised under it. Students participated and winners were given prizes.

INTERN VILLAGE

An Internship enables students to gain first-hand exposure of working in a real world, and therefore has become a necessity.

Paid? Certified? Or just pure experienced learning, we assure providing an internship within a period of 7 days.

This incentive was taken so that students no longer have to waste time in exploring for an optimum internship, instead by filling a form online and registering with us they can get the internship of their choice.

Intern Village provides with the opportunity to make the most out of the college years and acts as a bridge between classroom learning and the corporate world.
